

4-6. July, 2019

Conference
Workshops
Welding Quiz

YPIC 2019

5th Young welding Professionals
International Conference

The YPIC2019 conference aims to

- bring together young professionals worldwide interested in welding and related technologies
- integrate and mediate professional knowledge
- providing a forum of professional discourse for sharing and harmonizing ideas

www.YPIC2019.com

Call for papers in the following topics:

1. Additive manufacturing
2. Joining techniques in the automotive industry
3. Laser and electron beam welding
4. Arc welding and allied processes
5. Non-destructive testing
6. Machine learning and data science
7. Fatigue and fracture of welded components
8. Polymer joining and adhesive technology
9. Numerical simulation and process modelling
10. Risk management and damages of welded structures

Workshops and welding quiz

International workshops and quiz coordinated by international well known professionals in the following topics:

- Welding and allied processes
- Non-destructive testing
- Additive manufacturing

An event for networking and extend your theoretical and practical knowledge, which contains 50% theoretical - 50% practical tasks.

Poster presentation

Gives an opportunity for young researchers and professionals to share and exchange their results in their professional fields.

Who should attend?

- This conference will focus primarily on Bachelor's, Master's, PhD and Welding Engineer students and on other Young Professionals who are at the beginning of their professional carrier
- There is, however, no restriction on the „categories” and ages for participants.
- Professors and industrial representatives are welcome as well.

Beam welding
Microstructure Duplex Steels
Material
Advanced Robotic Welding
Orbital Welding Technology Design
Networking
Workshop

Destination: Hungary

Presented by:
Hungarian Welding Society
